## CARALYNN'S CORNER

Well, despite the very wet weather early this week, we managed to punch both nines. Top dressing will have to wait until next week when everything has dried out a bit. Growing conditions look good and we will do our best to keep the course in top playing condition. There may be varied heights of the rough here or there, so stay in the fairway. It's really just that simple! Remember to fix your ball marks on the greens and replace your divots.

- Caralynn

## TEE TALK –

**Quack Quack** - still want to play golf despite the wet weather? *This week - ONLY UNTIL SATURDAY, May 14th - we are offering all rain gear at **20%\* off.** This includes: FootJoy Rain pants, FJ jackets and rain gloves, Taylor Made and Titleist umbrellas.*

*Also offered until Saturday, all FJ shoes at **15%\*.***

*\*Standard Member Discount does not apply to these items.*

You are all ready for the season, but are your clubs? - This damp weather is a perfect time to replace your grips. Re-gripping and shaft adjustment is available onsite. You can expect a prompt and professional turnaround on all re-gripping services. Drop in and talk to one of the Pro Shop staff.

Damp grass means an increased chance of slipping when you stand at the tee. Check the spikes on your shoes. Keeping your balance may be as simple as replacing the spikes. Replacement soft spikes are available in the shop and will even be installed by staff.

- Stuart

information on  
booking tee  
times online,
