Isn't the ball mark repair tool one of the greatest things ever invented!?! We as a membership have been open for little over two weeks and the greens are already polluted with ball marks. I know this is an issue we have to bring up every year, but it's really important to leave the putting surface the way you found it.....ball mark free! Members, please be accountable when playing a round at the TGC.

Course aeration will take place May 10 & 11, depending on weather conditions. Plan your game accordingly.

Thanks, Caralynn
